

## WE TAKE CARE OF YOUR ENTIRE DISPENSE SYSTEM—FROM TOP TO BOTTOM

- Service and maintain chillers, ice banks, under-bench systems, and event bars
- Ensure cool rooms remain clean, organised, and operating efficiently
- Inspect and test all cooling system components to maintain optimal performance
- Replace glycol when required to support maximum cooling efficiency
- Clean and maintain condenser bays on ice bank systems
- Strip, clean, and service taps regularly to ensure consistent pour quality
- Carry out scheduled beer line cleaning and maintenance
- Install and service cocktail tap systems and post-mix equipment

BEVERAGE DISPENSE SPECIALISTS

## YOUR BEVERAGE DISPENSE SPECIALIST

Dispense Worx South proudly provides expert beer system installs, beer line cleaning, maintenance, and servicing across the South Island of New Zealand.

Based in Christchurch, we support businesses throughout the wider Canterbury region—including Timaru, Twizel, Kaikoura, the West Coast, and Otago.

We offer comprehensive services including beer system repairs, routine maintenance, tap and system upgrades, and continuous support to ensure your operation runs seamlessly.

## UNDER CONTRACT?

All components of your system are carefully inspected and maintained. If you're contracted with any of the following beverage companies — **Lion, Asahi, DB Breweries and Cassels Brewing Co.** or post-mix/**Frucor**, we're here to serve. We work closely with their teams and have direct access to parts and support, enabling us to complete jobs quickly and efficiently while minimising waste and downtime for your business.

## SUPPORT 24/7

For urgent issues, we offer prompt call-out services—our skilled beer technicians are just a phone call away.

We also provide troubleshooting support via video call for quick assessments and guidance.
